

UNITED IN SERVICE.  
TRUSTED FOR LIFE.

## GENERAL SURGERY

The Nor-Lea General Surgery team offers surgical treatment for common “Lumps and Bumps,” such as removal of skin growths, cysts and lipomas. We care for patients needing surgery on the abdomen, skin, breast, soft tissues, or endocrine system, as well as the esophagus, stomach, small bowel, colon, liver, pancreas, gallbladder, bile ducts, and hemorrhoids.

Our minimally invasive, surgical procedures make healing quicker, easier and virtually pain-free. Our surgeon has advanced fellowship training, including training in colon and rectal surgery, laparoscopic gastrointestinal surgery, surgical critical care, trauma and acute care and emergency general surgery.

## We Most Commonly Treat

- Gallbladder Disease  
(Laparoscopic Cholecystectomy)
- Laparoscopic Hernia Repair
- Surgical Treatment of Cancers such as Skin Cancer, Breast Cancer and Colon Cancer
- Hemorrhoids of all stages. No matter how significant the symptom.

## What to Expect

The first office appointment is an introduction and consultation. Discussion of diagnosis as well as surgical and nonsurgical options, associated risks and benefits. Surgery will then be scheduled for subsequent visit in a timely fashion.

## Exceptional Care Right Here in Lea County

The patient can be confident that they will be treated with compassion by an experienced medical staff. In addition, the operating room staff use state-of-the-art equipment and up to date techniques, providing excellent care. Along with our professional staff, we make it our goal to provide quality services in a secure environment to make your procedure as comfortable as possible.

## Jerry Batley, MD, FACS
